

Power unit V-ECOSILENT

New!

V-ECOSILENT – The Power Unit, which removes extra noise and stress from the demanding RTC scene by ensuring the unit remains on “tick-over”, until your rescue tool is required. Engine revs are automatically increased when the tool control button is pressed, giving the operator “revs on demand”. This Power Unit operates 2 tools simultaneously or one tool in “fast” turbo mode. Fully enclosed, this unit is a super quiet and weighing a mere 24.9kgs and measuring 580 x 295 x 445 mm is easy to carry around the scene.
